A firm may bid in more than one category. **Each category requires its own registration and its own fee of ₹1,000.**

3 INSTRUCTIONS TO BIDDERS

1. **How to bid.** Bids are submitted online only, at **bikerbuddy24.com/tender/**. Bids sent by email, post or WhatsApp will not be entered into the comparison.
2. **Registration fee ₹1,000 per category**, paid by UPI on the portal. The fee is **non-refundable**, whether or not the bid succeeds. The UTR of the payment must be entered with the bid; a bid whose UTR cannot be verified is rejected.
3. **Earnest money deposit — 2% of your own quoted value, payable with the bid**, by UPI to the same UPI ID, with the UTR entered on the form. **A bid submitted without the deposit is not entered into the comparison.** The portal computes the exact amount from the figure you quote. You must also give the **UPI ID to which your refund should be sent** — a wrong ID is the commonest cause of a delayed refund.
4. **Quote against the specification.** The annexures state item, quantity and quality for every category. Quote one total figure, **inclusive of GST, transport, labour, installation and removal**, unless your bid states otherwise. Costs left out of that figure cannot be added later.
5. **Declare any deviation.** If you cannot meet a line of the specification, say so in the bid. **Anything not declared is treated as agreed**, and will be enforced at the time of delivery.
6. **Past work is mandatory.** Give three comparable jobs with name, place, year and scale. A bid with no past work stated is not eligible, whatever the rate.
7. **Outstation bidders.** Firms from outside Rajasthan are welcome. Freight to Jaipur and the travel, lodging and food of your own crew must be inside the quoted rate — these cannot be claimed later. Nearest railhead Jaipur Junction; nearest airport Jaipur (JAI).
8. **Confidentiality.** No other bidder can see your rate, your firm name or your documents at any stage. Bids are visible only to the organiser's tender committee.

4 CONDITIONS OF AWARD AND PAYMENT

1. **Eligibility is checked before price.** Every bid is first assessed on experience, capacity and documents. The lowest bid *among those found eligible* is awarded the work — not simply the lowest bid received.
2. **Earnest money deposit — 2% of the quoted value, taken from every bidder with the bid.** It is taken up front, and not from the successful bidder afterwards, so that the award cannot collapse and send procurement back to the beginning with no time left before the event.
3. **Refund of the deposit.** Unsuccessful bidders are refunded **in full by 10 December 2026**, to the UPI ID given with the bid, and need do nothing to claim it — the refund status can be checked on the portal against the bid reference. The deposit of the **successful** bidder is retained as security and returned in full after satisfactory completion of the work. **The deposit carries no interest**, and no deduction is made from the refund of an unsuccessful bid.
4. **Payment is released only after the service has been received to the organiser's satisfaction.** No advance is payable. For the catering and stage categories, "satisfaction" is judged against the annexure, not against a verbal understanding.
5. **Withdrawal.** A bid withdrawn after the work order forfeits the security deposit in full, because a replacement vendor cannot be arranged at that notice.
6. **Statutory compliance.** Licences, labour compliance and taxes applicable to the vendor's own work are the vendor's responsibility. The FSSAI licence is mandatory for the catering category.
7. The organiser may accept or reject any or all bids without assigning a reason, and may re-tender a category in which no bid is found eligible.
